

Important Information About Personal Injury and Insurance Claims, Pending Lawsuits, And All Other Legal Claims and Causes of Action

If you have been injured, and the other party was at fault or is otherwise legally liable for your damages, that claim will become the property of your bankruptcy estate and you may lose control over the right to settle it or to collect the proceeds of your lawsuit against the wrongdoers.

Even if you have not yet filed a lawsuit, the right to bring a lawsuit and any pre-petition cause of action for damages belongs to your bankruptcy trustee.

The same is true for insurance claims for bodily injury and even property damage.

All personal injury and insurance claims, pending lawsuits, and other causes of action must be listed and your bankruptcy papers.
